

2024 ANNUAL
MEETING

OCTOBER 21ST-25TH
2024

HARRAH'S ATLANTIC
CITY, NJ

NORTHEASTERN ASSOCIATION OF FORENSIC SCIENTISTS

THE NEAFS ORGANIZATION

NEAFS is a regional Forensic Science organization located in the New England area composed of Forensic Science practitioners from all disciplines, laboratory managers, students in undergrad and graduate programs, and educators. Founded in 1975, NEAFS is dedicated to improving the professional status and technical capabilities of individuals engaged in all phases of forensic science.

“To accomplish its goals, NEAFS conducts continuing education seminars featuring workshops and special training sessions. The Annual Meeting... presents a contagious atmosphere of scientific exchange and social congeniality.”
- Mark Lewis, President 1980

WHY EXHIBIT AT NEAFS

Exhibiting at NEAFS connects you to hundreds of Forensic Science practitioners from all disciplines, laboratory managers, students in undergrad and graduate programs, and educators

“Keep doing what you’re doing. It has been an amazing 15 years for me and NEAFS truly is a family. NEAFS enables me to bring so much back to my classroom every year and provide me with the energy I need to keep my class up to date with what’s going on in the field.”

“You guys keep registration costs low and choose reasonably priced hotels. This conference is always a good bargain!”

“The NEAFS Conference was one of the best events I have participated in my 20+ years in sales. The attendees were enthusiastic and eager to speak with the vendors which is important to us. The guest speaker you had to discuss his experience of 9/11 and emphasizing the importance of the work of a forensic scientists was inspiring. How he brought his work to life and stating that forensic scientists help to bring closure to families is something I will never forget.

Any company that sells into the forensic arena should attend your conference as I was honored to represent CDS Analytical.”

PAST EXHIBITORS

- | | | |
|--|---------------------------------|-----------------------------|
| 908Devices | GE Healthcare | Parker Hannafin |
| American Board of Criminalistics (ABC) | GenTech Scientific | Perkin Elmer |
| Activated Research Company | Gerstel | Phenomenex |
| Adam Equipment | Government Scientific Source | Precision Scale and Balance |
| Agilent | Hamilton Company | Promega |
| Applied Spectra | iChrom Solutions | Qiagen |
| Aurora Biomed | Illumina | Quantum Analytics |
| Beckman Coulter Life Sciences | I.Miller | Randox |
| Biotage | Indigo BioAutomation | Renishaw |
| Bode Technology | Innogenomics | Restek |
| Bone Clones | InVita Healthcare | RTI International |
| Bruker | Ion Bench | Sangali |
| BSD Robotics | JEOL | Seratec |
| Cayman Chemical Company | JH Technologies | SCIEX |
| CDS Analytical | JusticeTrax | Securitas Healthcare |
| CFSRE (Center for Forensic Science Research & Education) | Labino Forensics | Shimadzu |
| CRAIC | LAT Forensics | Sirchie |
| Crime Sciences Inc | Leeds | Soft Genetics |
| DANI | Life Technologies | Specac Limited |
| Delta Forensics | Lipomed | Spider Thermo |
| DNA Labs International | LNI Swissgas | Syracuse University |
| EDAX | Lucidity | Teledyne FLIR |
| Eppendorf | Magritek | TESCAN |
| EVIDENT | MetaSystems | Thermo Fisher Scientific |
| Foster + Freeman | Mettler Toledo | UCT |
| Full Spectrum | National Medical Services (NMS) | Verogen |
| | Niagara Scientific Products | Waters Corporation |
| | Oxford Instruments | Wilkem Scientific |

On behalf of NEAFS, thank you to all the Exhibitors and Sponsors who have shown their generous support in the past years, and for those who will support our organization by contributing in the future.

Each Standard Exhibitor Booth includes:

One exhibitor table and ~10' x 10' floor space for two representatives in our Exhibitor Hall

Company name and introduction, website address, acknowledgment, and a free half-page advertisement will be included in the Annual Meeting booklet

MX908 Rapidly Detect 2000+ Fentanyl

Fast reliable detection of street fentanyl has been a challenge for field technologies, until now. The MX908 makes it easy by taking field-based identification to the next level with Drug Hunter Mode.

Drug Hunter Mode sets MX908 apart from library-based technologies. This Mode enables rapid alarm in the presence of over 2,000 fentanyl variants even in the presence of both cutting and cloaking agents.

Thoughts from a Peter DeForest Research Award Winner Caitlyn Facht

As part of the Master's degree requirements for Cedar Crest College, students have to complete a research-based thesis. I have always had a passion for DNA so I decided early on that my project would focus in that area. I sifted through many types of projects and was faced with a decision between two. I sat down with Dr. Quirino to help me make the decision and I specifically remember him saying, "Do you want to play it safe or do you want to set the world on fire?" Obviously, I had no ambitions of just settling and thought I want to do something worth my while so I went with curve analysis. me labs to use.
